Motorcycle Clamping Device

Modular System STANDARD

Now also includes possibility for Scooter wheels

Wider clamping range, now for 10" rims

With the ProBike STANDARD system, you are now able to balance a great variety of motorcycle wheels. The new system is a further development of the former 802 series Kit. It now also includes an adaptor board and the new QuickFix (Ø 14 mm) Clamping device. The new adaptor board is smaller and requires less space. It can be upgraded with the adaptor board PROFESSIONAL.

Depending on the balancer there are two different types of adaptors available to install the system to the machine. The necessary adaptor has to be selected when purchasing the system.

- centering cones
- 14 mm motorcycle shaft
- centering sleeves 15 - 28 mm
- QuickFix Ø 14 mm
- Adaptor board Standard

Modular System PROFESSIONAL

The ProBike Standard can be upgraded with the modular system PROFESSIONAL.

It has become more individual in handling and offers the possibility to balance even more mono lever motorcycle wheels. New in this kit is the QuickFix for 19 mm motorcycle wheels. A newly designed adaptor board is part of this kit.

- Upgrade Kit for Monolever Wheels
- 19 mm motorcycle shaft
- centering sleeves up to 35 mm
- special centering kits for mono lever wheels
- QuickFix Ø 19 mm
- Adaptor board professional

Modular System EXPERT

With the Pro Bike modular system **EXPERT**, you are the expert in balancing motorcycle wheels. The additional motorcycle shafts included in this kit will give you perfect balancing results.

The kit includes a hanging bracket which can easily be fixed to the adaptor board included in the modular system professional.

So the additional shafts can be stored efficiently and without getting dirty.

Upgrade Kit Motorcycle Shafts

- 9 additional motorcycle shafts (Ø 10, 12, 15, 16, 17, 20, 22, 25, 28 mm)
- distance sleeves in different diameters and length

Modular System - ProBike II

Special Centering Kits

You now own the ProBike modular STANDARD, and want to balance motorcycles with mono lever wheels. In this case you will need the modular system PROFESSIONAL, in which all the special centering adaptors are included. Should you require only one special centering adaptor, this can also be purchased individually.
